

**Development and Uses of**

# **Biofortified Agricultural Products**

**Edited by**

**Gary S. Bañuelos • Zhi-Qing Lin**

**CRC Press**  
Taylor & Francis Group

# Contents

Foreword .....	ix
Acknowledgments.....	xi
The Editors.....	xiii
Contributors .....	xv
<b>1</b>	<b>The Impact of Trace Elements from Plants on Human Nutrition: A Case for Biofortification .....</b>
	<b>1</b>
	<i>Stefan Storcksdieck genannt Bonsmann and Richard F. Hurrell</i>
<b>2</b>	<b>Biofortification in the Food Chain, and Use of Selenium and Phyto-Compounds in Risk Reduction and Control of Prostate Cancer .....</b>
	<b>17</b>
	<i>Graham Lyons, Yusuf Genc, and Robin Graham</i>
<b>3</b>	<b>Uptake and Accumulation of Selenium in Plants in Relation to Chemical Speciation and Biotransformation .....</b>
	<b>45</b>
	<i>Zhi-Qing Lin</i>
<b>4</b>	<b>Phytoremediation of Selenium-Contaminated Soil and Water Produces Biofortified Products and New Agricultural Byproducts...57</b>
	<i>Gary S. Bañuelos</i>
<b>5</b>	<b>Soil and Crop Management for Improving Iron and Zinc Nutrition of Crops .....</b>
	<b>71</b>
	<i>Fusuo Zhang, Mingsheng Fan, Xiaopeng Gao, Chunqin Zou, and Yuanmei Zuo</i>
<b>6</b>	<b>Effects of Soil Management on Zinc Uptake and Its Bioavailability in Plants .....</b>
	<b>95</b>
	<i>Rainer Schulin, Amir Khoshgoftarmanesh, Majid Afyuni, Bernd Nowack, and Emmanuel Frossard</i>
<b>7</b>	<b>Farming Practices and Crop Quality: Implementation on Feed and Diet Quality .....</b>
	<b>115</b>
	<i>Tiequan Zhang and Yutao Wang</i>

- 8** Effects of Long-Term Cattle Manure Applications on Soil, Water, and Crops: Implications for Animal and Human Health..... 135  
*Mônica Batista Benke, Xiyang Hao, and Chi Chang*
- 9** How Does Aerobic Rice Take Up Zinc from Low Zinc Soil? Mechanisms, Trade-Offs, and Implications for Breeding..... 153  
*Xiaopeng Gao, Thomas W. Kuyper, Fusuo Zhang, Chunqin Zou, and Ellis Hoffland*
- 10** Breeding for Micronutrient Enriched Rice ..... 171  
*Glenn B. Gregorio, Tin Htut, and Gloria S. Cabuslay*
- 11** Biofortification in a Food Chain Approach for Rice in China..... 181  
*Maja Slingerland, Fusuo Zhang, Tjeerd-Jan Stomph, Xiaopeng Gao, Jianfen Liang, and Wen Jiang*
- 12** Expression of Pea Seed Ferritin cDNA in Indian Mustard: Nutritional Value and Oxidative Stress Tolerance of the Transformants..... 205  
*Nadella Nirupa, Majeti Narasimha Vara Prasad, and Pulugurtha Bharadwaja Kirti*
- 13** Progress in Understanding the Molecular Regulation of Iron Uptake in Strategy I Plants..... 221  
*Hong-Qing Ling, Juan Du, and Ning Wang*
- 14** Identification of Genes for Biofortification: Genetic and Molecular Analysis of Mineral Accumulation in *Arabidopsis thaliana* and Other Plant Species..... 231  
*Mark G.M. Aarts and Jian Wu*
- 15** Uptake of Trace Elements by Soybean in Typic Quartzipsamment Soil Treated with Different Phosphorous Fertilizers in Brazil ..... 253  
*Francisco Nildo da Silva, Antonio Eduardo Furtini Neto, and Andrew C. Chang*

**16** Determination and Importance of Trace Elements in Chinese Medicinal Herbs Used for Healthcare and Medical Treatments ..... 265  
*Chien-Yi Chen, Liyang Zhang, and Guangming Huo*

**17** Field-to-Fork Perspective: Soil Nutrition/Biofortification as the Root of Human Health and Well-Being ..... 279  
*Arden B. Andersen*

**Index** ..... 283
